

Stephen W. Nesbitt, Ph.D.
Department of Atmospheric Sciences
School of Earth Society and Environment
University of Illinois at Urbana-Champaign
1301 West Green Street
Urbana, IL 61801 USA
E-mail: snesbitt@illinois.edu
Phone: (217) 244-3740

1. PERSONAL HISTORY AND PROFESSIONAL EXPERIENCE

A. Educational Background

B.S. in Meteorology with honors (*summa cum laude*), State University of New York College at Oswego, 1997
M.S. in Meteorology, Texas A&M University, 1999
Ph.D. in Meteorology, University of Utah, 2003

B. List of Academic Positions Since Final Degree

Assistant Professor, Dept. of Atmospheric Sciences, University of Illinois at Urbana-Champaign, 2006 – 2012
Associate Professor, Dept. of Atmospheric Sciences, University of Illinois at Urbana-Champaign, 2012 – 2019
Affiliate, Computational Science and Engineering, University of Illinois at Urbana-Champaign, 2014 – present
Affiliate, Center for Latin American Studies, University of Illinois at Urbana-Champaign, 2015 – present
Visiting Professor, Dept. de Ciencias de la Atmósfera y los Océanos, Universidad de Buenos Aires, Spr 2015
Professor, Dept. of Atmospheric Sciences, University of Illinois at Urbana-Champaign, 2019 – present
Associate Head, Dept. of Atmospheric Sciences, University of Illinois at Urbana-Champaign, 2021 – present
Director of Graduate Studies, Dept. of Atmospheric Sciences, University of Illinois at Urbana-Champaign, 2021 – present

C. Other Professional Employment

Undergraduate Research Assistant, State University of New York College at Oswego, Oswego, NY, 1995 – 1997
Graduate Teaching Assistant, Department of Meteorology, Texas A&M University, College Station, TX, 1997
Graduate Research Assistant, Tropical Convection Research Program, Department of Meteorology, Texas A&M University, College Station, TX, 1997 – 1999
Graduate Research Assistant, Tropical Meteorology Group, University of Utah, Salt Lake City, UT, 1999 – 2003
Research Scientist I, Dept. of Atmospheric Sciences, Colorado State University, 2003 – 2005
Research Scientist II, Dept. of Atmospheric Sciences, Colorado State University, 2005 – 2006
Research Fellow, Consejo Nacional de Investigaciones Científicas y Técnicas, Centro de Investigaciones del Mar y la Atmósfera, Argentina, Spr 2015
Visiting Scientist, Servicio Meteorológico Nacional, Argentina, Spr 2015
Affiliate Researcher, Instituto Nacional de Agua, Argentina, Jun 2019 – present

D. Honors, Recognitions, and Prizes

Highly Meritorious Meteorology Senior Award, State University of New York College at Oswego, 1997
Excellence in Graduate Research Award, University of Utah, 2003
NASA Earth System Science Graduate Fellowship, 2001-2003
Editors' Citation for Excellence in Refereeing for *Journal of Geophysical Research – Atmospheres*, AGU, 2006
NASA New Investigator Award, 2008
NASA Group Achievement Award, *Genesis and Rapid Intensification Project* field campaign, 2011
Editors' Citation for Excellence in Refereeing for *Journal of Geophysical Research – Atmospheres*, AGU, 2011
Co-Chair, AMS 35th Conference on Radar Meteorology, Pittsburgh, PA, 2011
Honors Council, College of Liberal Arts and Sciences, University of Illinois, 2012-2014
University of Illinois, College of Liberal Arts and Sciences, Reflective Teaching Seminar, 2010-11 academic year
Elected chair, Scientific and Technical Advisory Committee on Radar Meteorology, AMS, 2013-2016
Program theme lead and organizing committee, AMS 36th Conference on Radar Meteorology, Breckenridge, CO, Oct 2013

Organizing committee, 8th European Conference on Radar in Meteorology and Hydrology, Garmisch-Partenkirchen, Germany, Sep 2014
 Research Fellowship, Consejo Nacional de Investigaciones Científicas y Técnicas, Argentina, Spring 2015
 NASA Robert H. Goddard Award, *Global Precipitation Measurement mission* ground validation team for exceptional achievement in science, 2015
 NASA Group Achievement Award, *Global Precipitation Measurement mission* science team, 2015
 Program theme lead and organizing committee, AMS 37th Conference on Radar Meteorology, Norman, OK, Sep 2015
 Organizing committee, 8th European Radar and Hydrology Conference, Antalya, Turkey, Oct 2016
 AMS award for Outstanding Service as Member and Chair, Radar Meteorology, 2016
 Science Community Committee, NASA Aerosol and Clouds, Convection, and Precipitation (ACCP) designated observable study, 2018 – 2021
 Suborbital Working Group, NASA Atmosphere Observing System (AtmOS) mission, 2018 – present
 Radar Working Group, NASA Atmosphere Observing System (AtmOS) mission, 2021 – present
 Radiometer Working Group, Atmosphere Observing System (AtmOS) mission, 2021 – present
 NASA Group Achievement Award, *The Cloud, Aerosol and Monsoon Processes Philippines Experiment (CAMP²EX) field campaign*, 2020
 Co-Chair, NASA Global Precipitation Measurement Ground Validation Symposium, Online, 2020
 Department faculty award for Outstanding Service to the Department of Atmospheric Sciences, 2020
 Department faculty award for Outstanding Teacher in a Graduate Course, 2020
 Co-Convener, Mesoscale Symposium, American Meteorological Society Annual Meeting, 2021
 Department faculty award for Outstanding Graduate Student Mentor, 2021
 Co-Chair, 19th Conference on Mesoscale Processes, American Meteorological Society Annual Meeting, Houston, Texas, 2022
 University of Illinois at Urbana-Champaign List of Teachers Ranked as Excellent:
 ATMS 403 Spring 2007, Fall 2007, Fall 2009, ATMS 406 Fall 2009, ATMS 505 Spring 2013, ATMS 571 Fall 2014, ATMS 597 Spring 2020

E. Invited Lectures and Invited Conference Presentations

Intense thunderstorms in the tropics, Local Chapter Meeting, Central Illinois Chapter of the American Meteorological Society, Lincoln, IL, September 2006
 Observations and processes within intense thunderstorms, Seminar Series, Illinois State Water Survey, Champaign, IL, September 2006
 Global Precipitation Mission ground validation strategies, Department of Energy Atmospheric Radiation Measurement Cloud Properties Working Group Meeting, Annapolis, MD, October 2006
 North American Monsoon, Science Today Lecture Series, State University of New York College at Oswego, October 2007
 Precipitation processes within the North American Monsoon, World Meteorological Organization Workshop on High Resolution Precipitation Products, Geneva, Switzerland, December 2007
 Satellite studies of monsoon precipitation, Department of Earth Sciences, University of Goa, Goa, India, August 2008
 North American Monsoon, Seminar Series, Department of Atmospheric Sciences, University of Illinois at Urbana-Champaign, October 2008
 High resolution precipitation data and analysis of the North American Monsoon, Second Climate Prediction Program for the Americas Principal Investigator's Meeting, Silver Spring, MD, October 2008
 North American Monsoon, Under threat? Department of Physics and Engineering, Fort Lewis College, April 2010
 Impact of soil moisture initialization on convection in the North American Monsoon, Department of Civil and Environmental Engineering, University of Illinois at Urbana-Champaign, April 2010
 Impact of soil moisture initialization on convection in the North American Monsoon, Department of Atmospheric Science, University of Utah, June 2010
 Soil moisture feedbacks on deep convection in the North American Monsoon, Max Planck Institute for Meteorology, Hamburg, Germany, October 2010
 Orographic precipitation in conditionally unstable flow, Department of Earth and Atmospheric Science, Purdue University, October 2010

Orographic precipitation in conditionally unstable flow, Department of Atmospheric Science, Colorado State University, November 2010

Warm season orographic precipitation, Complex Terrain Workshop, Biosphere 2/University of Arizona, February 2011

Convective structure of rapidly intensifying tropical cyclones, Department of Meteorology, University of Hawaii, December 2011

Biosphere-atmosphere interactions in the North American Monsoon, Energy Biosciences Institute, Water Workshop, Chicago, IL, June 2012

Radar-aircraft synergy in GPM Field Campaign Measurements, 5th NASA GPM Ground Validation Workshop, Toronto, Canada, July 2012

Advanced dual-polarization radar applications, Federal University of Santa Maria, Santa Maria, Rio Grande do Sul, Brazil, Dec 2012

NASA Global Precipitation Measurement Mission Ground Validation, Argonne National Laboratory, Chicago, IL, Jan 2013.

NASA Global Precipitation Measurement Mission Ground Validation, University of Wisconsin-Madison, Madison, WI, Mar 2013.

Microphysics research using matched radar-aircraft analyses, NASA Precipitation Measurement Missions Science Team Meeting, Annapolis, MD, Mar 2013.

Science activities of the Global Precipitation Measurement Missions Drop Size Distribution Working Group, 6th NASA GPM Ground Validation Workshop, Rome, Italy, Nov 2013.

What we don't know about snow: Snowfall retrieval science in the Global Precipitation Measurement Mission. Program on Atmospheres, Oceans, and Climate, Massachusetts Institute of Technology, Cambridge, Massachusetts, Nov 2013.

Building the GPM-GV Column from the GPM Cold season Precipitation Experiment. AGU Fall Meeting, San Francisco, California, Dec 2013.

What we don't know about snow: Snowfall retrieval science in the Global Precipitation Measurement Mission. Department of Atmospheric Sciences, University of North Dakota, Grand Forks, North Dakota, Dec 2014.

RELAMPAGO. World Meteorological Organization, Working Group on Nowcasting Research, Montreal, Canada, Jul 2014.

RELAMPAGO. Geosciences Division, National Science Foundation, Arlington, Virginia, Aug 2014.

RELAMPAGO. Universidad Nacional de Cuyo, Mendoza, Argentina, Apr 2015.

RELAMPAGO. Universidad Nacional de Córdoba, Cordoba, Argentina, Apr 2015.

RELAMPAGO. Universidad de Buenos Aires, Buenos Aires, Argentina, May 2015.

Improving Cold Season Precipitation Retrievals with GPM Ground Validation Data. 7th NASA Global Precipitation Measurement Ground Validation Workshop, Seoul, Korea, May 2015.

RELAMPAGO. Conference Keynote Presentation. XII Argentine Congress on Meteorology, Mar del Plata, Argentina, May 2015.

What we don't know about snow: Snowfall retrieval science in the Global Precipitation Measurement Mission. School of Architecture, Civil, and Environmental Engineering, École Polytechnique Fédérale de Lausanne, Lausanne, Switzerland, Jun 2015.

Constraining Global Precipitation Measurement Mission retrievals with GPM Field Campaign observations. NASA Precipitation Measurement Missions Science Team meeting.

Radar operations during the CACTI field campaign. Atmospheric Radiation Measurement Radar Meeting, Miami, Florida, Feb 2016.

Processes, prediction, and societal impacts of intense convection in subtropical South America. Environmental Sciences Division, Argonne National Laboratory, Mar 2016.

Processes, prediction, and societal impacts of intense convection in subtropical South America. NASA Marshall Space Flight Center and University of Alabama-Huntsville, Mar 2016.

CACTI-RELAMPAGO synergy. Atmospheric Radiation Measurement Atmospheric Systems Research Science Team Meeting, Tysons, Virginia, Apr 2016.

A critical evaluation of the GPM DPR algorithm assumptions using OLYMPLEX data, OLYMPLEX Workshop, Seattle, Mar 2017.

RELAMPAGO. Atmospheric Radiation Measurement Atmospheric Systems Research Science Team Meeting, Tysons, Virginia, Mar 2017.

A critical evaluation of the GPM DPR algorithm assumptions using OLYMPLEX data, OLYMPLEX Workshop, Seattle, Mar 2017.

RELAMPAGO. Atmospheric Radiation Measurement Atmospheric Systems Research Science Team Meeting, Tysons, Virginia, Mar 2017.

Resumen del Proyecto RELAMPAGO-CACTI. Servicio Meteorológico Nacional, Buenos Aires, Jul 2017.

Triple-frequency radar observations of snow in OLYMPEx. NASA Precipitation Measurement Missions Science Team meeting.

Proyecto RELAMPAGO-CACTI. AGU Fall Meeting, New Orleans, Louisiana, Dec 2017.

Earth system observations for societal benefit, Space Science and Engineering Center, University of Wisconsin-Madison, May 2018.

Proyecto RELAMPAGO-CACTI. Ministry of Science, Technology, and Innovation, Buenos Aires, Jun 2018.

Proyecto RELAMPAGO-CACTI. Universidad Nacional de Córdoba, Córdoba, Argentina, Jun 2018.

Orographic convective initiation and upscale growth. Invited keynote presentation, 4th Symposium on Radar and Hydrometeorological Systems, Córdoba, Argentina, Sep 2018.

Radar Meteorology, Advanced Study Institute-RELAMPAGO, National Science Foundation, Nov 2018.

Chasing the World's Most Intense Thunderstorms: Proyecto RELAMPAGO-CACTI Argentina 2018, American Meteorological Society Annual Meeting Student Conference, Phoenix, Arizona, Jan 2019.

RELAMPAGO. Atmospheric Radiation Measurement Atmospheric Systems Research Science Team Meeting, Rockville, Maryland, Jun 2019.

Adaptive radar scanning in CACTI-RELAMPAGO. Atmospheric Radiation Measurement Atmospheric Systems Research Science Team Meeting, Rockville, Maryland, Jun 2019.

Mesoscale flows during convective initiation and upscale growth observed during RELAMPAGO-CACTI. Invited keynote presentation, 18th Conference on Mesoscale Meteorology, American Meteorological Society, Savannah, Georgia.

Mesoscale flows during convective initiation and upscale growth observed during RELAMPAGO-CACTI. Invited seminar, Pacific Northwest National Lab, Richland, Washington, Aug 2019.

What can observations tell us about improving the representation of mesoscale convective systems in large-scale models. Invited presentation, AGU Fall Meeting, San Francisco, California, Dec 2019.

Suborbital Research for Convective Storm Systems, NASA Aerosol Clouds Convection Precipitation Study, Suborbital Workshop. Online, Mar 2020.

Objective 3 Science: Convective Storm Systems, NASA Aerosol Clouds Convection Precipitation Study, Science Community Committee Meeting. Online, Mar 2020.

Rapid convective mode transitions in the lee of complex terrain observed in RELAMPAGO-CACTI. 19th Conference on Mountain Meteorology, American Meteorological Society. Online, Jul 2020.

RELAMPAGO-CACTI, Earth and Planetary Science Department, Purdue University, Oct 2020.

Improving model predictions of precipitation, NOAA/DOE Precipitation Processes and Prediction Workshop, Online, Dec 2020.

Understanding the ingredients for a global convective hotspot in Subtropical South America: RELAMPAGO-CACTI, Department Colloquium, Department of Atmospheric Science, Colorado State University, Mar 2021.

Convective Storms Suborbital Campaigns for the Aerosols, Clouds, Convection, and Precipitation Mission, Second NASA ACCP Suborbital Workshop, virtual, Mar 2021.

Actividades de pronóstico meteorológico generadas a partir del proyecto RELAMPAGO como apoyo a la gestión de los recursos hídricos en Córdoba, Diálogos sobre educación, ciencia, y tecnología como apoyo para la gestión de los recursos hídricos y la adaptación al cambio climático, Provincia de Córdoba, Argentina, virtual, Mar 2021.

How can RELAMPAGO-CACTI address regional climate models? Seminar, National Center for Atmospheric Research, Research Applications Laboratory, November 2021.

Understanding the ingredients for a global convective hotspot in Subtropical South America: RELAMPAGO-CACTI, Department Colloquium, Department of Meteorology, San Jose State University, November 2021.

RELAMPAGO-CACTI in Hydroclimate Research, Department of Energy Workshop on Mountain Hydroclimate Research, virtual, January 2022.

F. Offices Held in Professional Societies

President-elect, Central Illinois Chapter of the AMS, 2007

President, Central Illinois Chapter of the AMS, 2007 – 2009

Member, Scientific and Technical Advisory Committee on Radar Meteorology, AMS, 2009 – 2013

Chair, Scientific and Technical Advisory Committee on Radar Meteorology, AMS, 2013 – 2016

Member, Scientific and Technical Advisory Committee on Mesoscale Meteorology, AMS, 2019 – present

G. Editorships of Journals and Other Learned Publications

Editor, Journal of Applied Meteorology and Climatology, AMS, 2010 – 2014

Chief Editor, Atmosphere Section, Journal of Atmospheric and Oceanic Technology, AMS, 2022 –

H. Grants Received

Title: Creation and Analysis of C3VP Synthesis Datasets for Global Precipitation Mission Algorithm Development and Evaluation

Granting Agency: NASA, Global Precipitation Mission Ground Validation Program

Dates of Award: 5/15/07 – 5/14/08

Award Amount: \$20 K

Role: Principal investigator

Title: Diurnal variations and forcing of precipitation systems in the North American Monsoon system

Granting Agency: NOAA, Climate Prediction Program for the Americas Program

Dates of Award: 8/1/07 – 7/31/11

Award Amount: \$285 K

Role: Principal investigator

Title: Analysis of C3VP Synthesis Datasets for Global Precipitation Mission Algorithm Development and Evaluation

Principal Investigator: Stephen W. Nesbitt

Granting Agency: NASA, Global Precipitation Mission Ground Validation Program

Dates of Award: 5/15/08 – 5/14/09

Amount: \$40K

Role: Principal investigator

Title: Improving the Measurement and Understanding of Orographic Precipitation using NASA Satellite Measurements

Principal Investigator: Stephen W. Nesbitt

Granting Agency: NASA New Investigator Program

Dates of Award: 8/1/08 – 5/31/12

Amount: \$318K

Role: Principal investigator

Title: Application of NASA Field Observations, Satellite Retrievals and High Resolution WRF Simulations to Study Physical and Dynamical Processes Governing Tropical Cyclone Rainfall and Intensity Change

Granting Agency: NASA, Hurricane Science Research Program

Dates of Award: 1/1/09 – 12/31/12

Amount: \$614 K (\$270 K to SN)

Role: Principal investigator (Lead PI: Greg McFarquhar, Univ. Illinois)

Title: Coupling Between Weather, Climate, and Landscape Evolution in the Western Ghats of India

Granting Agency: NSF, Geomorphology and Land Use Dynamics

Dates of Award: 7/1/09 – 3/31/14

Award Amount: \$665 K (\$334 K to SN)

Role: Principal investigator (lead PI: Alison Anders, Univ. Illinois)

Title: Remote sensing and modeling studies of dynamical and microphysical processes in tropical cyclone intensification

Granting Agency: NASA, Earth System Science graduate fellowship for Daniel Harnos

<i>Dates of Award:</i>	9/1/10 –8/31/13
<i>Amount:</i>	\$75 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	Synthesis of aircraft and ground based measurements for NASA GPM algorithm validation
<i>Granting Agency:</i>	NASA, Global Precipitation Mission Ground Validation Program
<i>Dates of Award:</i>	10/1/10 – 9/30/12
<i>Amount:</i>	\$180 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	An orographic optimization technique for improved satellite quantitative precipitation estimation in complex terrain
<i>Granting Agency:</i>	NASA, Earth System Science graduate fellowship for Kimberly Reed
<i>Dates of Award:</i>	9/1/11 –8/31/14
<i>Amount:</i>	\$75 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	GPM field campaign aircraft and radar data synergy for algorithm improvement and error characterization
<i>Granting Agency:</i>	NASA, Precipitation Measurement Mission
<i>Dates of Award:</i>	2/4/13 – 2/3/16
<i>Amount:</i>	\$474 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	Illinois continued participation in Global Precipitation Mission field campaigns and analysis
<i>Granting Agency:</i>	National Aeronautics and Space Administration, Global Precipitation Mission Ground Validation Program
<i>Dates of Award:</i>	5/16/13 – 5/15/14
<i>Amount:</i>	\$70 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	Properties of ice and mixed phase particles in GPM-Ground Validation Field Campaigns
<i>Granting Agency:</i>	National Aeronautics and Space Administration, Global Precipitation Mission Ground Validation Program
<i>Dates of Award:</i>	5/16/14 – 5/15/15
<i>Amount:</i>	\$75 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	Improving spaceborne falling snow retrievals using in situ data, particle models, and validation
<i>Granting Agency:</i>	NASA, Earth System Science graduate fellowship for George Duffy
<i>Dates of Award:</i>	9/1/14 –8/31/17
<i>Amount:</i>	\$75 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	Using scatterometer-measured vector winds to study high-impact weather events
<i>Granting Agency:</i>	NASA, Ocean Vector Winds Science Team
<i>Dates of Award:</i>	7/1/14 – 6/30/18
<i>Amount:</i>	\$600 K to SN
<i>Role:</i>	Principal investigator (lead PI: Timothy J. Lang, NASA MSFC)
<i>Title:</i>	Influence of potential vorticity anomalies on flash flood-producing convective systems in subtropical South America

<i>Granting Agency:</i>	NSF – Graduate Research Fellowship for Stella Choi
<i>Dates of Award:</i>	9/1/15 – 8/31/18
<i>Amount:</i>	\$90 K
<i>Role:</i>	Principal investigator
<i>Granting Agency:</i>	University of Illinois Vice Chancellor for Research
<i>Dates of Award:</i>	1/1/15 – 1/1/16
<i>Title:</i>	SCAMP: System for Characterizing And Measuring Precipitation
<i>Amount:</i>	\$90 K for instrumentation for the department
<i>Role:</i>	Principal investigator (lead PI: Sonia Lasher-Trapp, Univ. Illinois)
<i>Principal Investigator:</i>	Stephen W. Nesbitt (lead PI: Robert J. Trapp)
<i>Granting Agency:</i>	DOE – Office of Science
<i>Dates of Award:</i>	9/1/15 – 8/31/18
<i>Title:</i>	A Bottom-up Approach to Improve the Representation of Deep Convective Clouds in Weather and Climate Models
<i>Amount:</i>	\$551 K (\$184 K to SN)
<i>Role:</i>	Principal investigator (lead PI: Robert J. Trapp)
<i>Title:</i>	Cloud, Aerosol, and Complex Terrain Interactions (CACTI) Experiment
<i>Granting Agency:</i>	DOE – Office of Science
<i>Dates of Award:</i>	8/1/18 – 4/30/18
<i>Equipment allocation:</i>	Facilities grant: deployment of ~ \$10 million in facilities for CACTI to Argentina
<i>Role:</i>	Principal investigator (lead PI: Adam Varble, Univ. Utah)
<i>Title:</i>	Participation in the OLYMPEX Field Campaign
<i>Granting Agency:</i>	NASA, Global Precipitation Mission Ground Validation Program
<i>Dates of Award:</i>	10/1/15 – 9/30/16
<i>Amount:</i>	\$75 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	Ice and mixed phase precipitation system retrieval validation for improved multifrequency spaceborne precipitation measurements
<i>Granting Agency:</i>	NASA, Precipitation Measurement Missions
<i>Dates of Award:</i>	2/4/16 – 2/3/19
<i>Amount:</i>	\$450 K
<i>Role:</i>	Principal investigator
<i>Title:</i>	CAMP2Ex leadership, flight planning and integrative analysis for addressing heterogeneity issues in observing aerosol induced changes to cloud and precipitation properties
<i>Granting Agency:</i>	NASA
<i>Dates of Award:</i>	8/1/17 – 7/4/19
<i>Amount:</i>	\$450 K (\$150 K to SN)
<i>Role:</i>	Principal investigator (lead PI: Larry Di Girolamo, Univ. Illinois)
<i>Title:</i>	RELAMPAGO (Remote sensing of Electrification, Lightning, And Mesoscale/microscale Processes with Adaptive Ground Observations) Scientific Overview Document and Experimental Design Overview Document
<i>Dates of Award:</i>	8/1/18 – 7/31/18
<i>Granting Agency:</i>	NSF, Physical and Dynamical Meteorology
<i>Equipment allocation:</i>	approx. \$15 million in observing facilities (\$30 K to SN for project planning)
<i>Role:</i>	Principal investigator

Title: Collaborative research: Use of RELAMPAGO observations to understand the thermodynamic, kinematic, and dynamic processes leading to heavy precipitation
Amount: \$650 K
Granting Agency: NSF, Physical and Dynamical Meteorology
Dates of Award: 8/1/17 – 7/31/21
Role: Principal investigator

Title: Use of GPM field campaign in-situ cloud measurements to evaluate precipitation retrieval assumptions
Granting Agency: NASA, Earth System Science graduate fellowship for Randy Chase
Dates of Award: 9/1/17 – 8/31/20
Amount: \$140 K
Role: Principal investigator

Title: Using satellite-measured ocean vector winds to determine cold pool characteristics and their relationships to tropical convective variability
Granting Agency: NASA, Ocean Vector Winds Science Team
Dates of Award: 2/1/19 – 1/31/23
Amount: \$625 K to SN
Role: Principal investigator (lead PI: Timothy J. Lang, NASA MSFC)

Title: Activities to improve CACTI data collection, quality, and utility
Granting Agency: DOE, Pacific Northwest National Laboratory
Dates of Award: 7/1/18 – 6/30/20
Amount: \$200 K
Role: Principal investigator

Title: On-site support for Battelle G-1 research operations in CACTI
Granting Agency: DOE, Pacific Northwest National Laboratory
Dates of Award: 10/30/18 – 12/31/18
Amount: \$11 K
Role: Principal investigator

Title: Radar tower for RELAMPAGO
Granting Agency: NSF, Physical and Dynamical Meteorology
Dates of Award: 8/1/18 – 7/31/19
Amount: \$198 K
Role: Principal investigator

Title: RAPID: A scientific deployment of a C-Band radar to observe heavy precipitation and convective system dynamic processes in RELAMPAGO
Granting Agency: NSF, Physical and Dynamical Meteorology
Dates of Award: 8/1/18 – 7/31/19
Amount: \$114 K
Role: Principal investigator

Title: Using GPM Ground Validation measurements for improved precipitation retrievals
Granting Agency: NASA
Dates of Award: 2/1/19 – 1/31/22
Amount: \$450 K
Role: Principal investigator

Title: Deep convective updraft populations in organized and unorganized systems across the globe

Granting Agency: NASA
Dates of Award: 2/1/19 – 1/31/22
Amount: \$450 K
Role: Co-Principal investigator (lead PI: R. Jeffrey Trapp)

Title: PERiLS (Propagation, Evolution and Rotation in Linear Storms)
Granting Agency: NSF
Dates of Award: 9/1/21 – 8/31/24
Amount: \$2.7 M
Role: Co-Principal investigator (lead PI: K. Kosiba)

Title: Confronting problems on aerosol, cloud, and precipitation heterogeneity in the Philippine region: Continued CAMP2Ex integrative analysis and modeling
Granting Agency: NASA
Dates of Award: 8/16/21 – 8/15/24
Amount: \$648K
Role: Co-Principal investigator (lead PI: L. DiGirolamo)

Title: High-impact Observations for Enhancing Great Lakes Snowfall Forecasting
Granting Agency: NOAA
Dates of Award: 9/1/21 – 8/31/23
Amount: \$315K (\$120K to SN)
Role: Co-investigator (lead PI: C. Petterson, U. Michigan)

Title: CIF: Community Instruments and Facilities: Mobile and Quickly Deployable Radars
Granting Agency: NSF
Dates of Award: 6/10/21 – 6/9/24
Amount: \$747K
Role: Co-Principal investigator (lead PI: K. Kosiba)

Submitted

Title: What makes the most intense thunderstorms on earth?
Granting Agency: NSF
Dates of Award: 9/16/22 – 8/15/25
Amount: \$721K
Role: Principal investigator

Title: Mid-scale RI-2: A Globally Transportable Phased Array Radar Fostering New Discoveries in the Atmospheric Sciences
Granting Agency: NSF
Dates of Award: 8/16/21 – 8/15/24
Amount: \$66M (\$245K to SN)
Role: Co-Principal investigator (lead PI: R. Palmer)

I. Review Panels (e.g., for Governmental Agencies, Educational Institutions)

Precipitation Measurement Missions, NASA, Aug 2006
CubeSat Missions, National Science Foundation, Jul 2008
CloudSat/CALIPSO Science Team, NASA, Feb 2010
The Science of Terra/Aqua, NASA, Aug 2010
Lawrence Berkeley National Labs Climate and Atmospheric Systems Research Focus Areas, DOE, Sept 2010
NASA Energy and Water cycle Study (NEWS), NASA, Dec 2011
Making Earth Science Data Records for Use in Research Environments (MEaSUREs), NASA, Aug 2012
CloudSat/CALIPSO Science Team, NASA, Jun 2013
GoAMAZON, Department of Energy, Sep 2013

The Science of Terra/Aqua, NASA, Sep 2013
 The Atmospheric Composition Campaign Data Analysis and Modeling program, NASA, Jul 2014
 The Earth Venture Instruments program, NASA, Sep 2015
 Weather Program, NASA, Sep 2016
 National Science Foundation Graduate Research Fellowship, Jan 2017
 National Science Foundation Major Research Instrumentation, Apr 2017
 Priority Programme Polarimetric Radar, Deutsche Forschungsgemeinschaft (DFG), German Sci. Fndtn., Jul 2018
 Department of Energy Atmospheric Radiation Measurement Mobile Facility Program Review, Aug 2018
 CloudSat/CALIPSO Science Team, NASA, Apr 2019
 NASA Orbital Earth Science Division Senior Review Panel, May-Jul 2020
 University of California Multicampus Research Programs, Oct 2020
 Priority Programme Polarimetric Radar, Deutsche Forschungsgemeinschaft (DFG), German Sci. Fndtn., Nov 2021
 National Science Foundation Graduate Research Fellowship, Jan 2022
 NOAA National Severe Storm Laboratory Science Review Panel, Nov 2021 (planned)

2. PUBLICATIONS AND CREATIVE WORKS

- # Denotes any publication derived from a candidate's thesis
- * Denotes any publication that has undergone stringent editorial review by peers
- + Denotes any publication that was invited and carries special prestige and recognition
- Denotes any publication from a student or post-doctoral researcher advised or co-advised by S. Nesbitt

A. Doctoral thesis title

*Nesbitt, S. W., 2003: Precipitation features according to the Tropical Rainfall Measuring Mission. Ph.D. Dissertation, Dept. of Meteorology, University of Utah, Salt Lake City, UT 84112-0110, 182 pp.

B. Books authored or co-authored

Rauber, R. M., and S. W. Nesbitt, 2018: Radar meteorology, a first course. Wiley-Blackwell, 488 pp.

C. Articles in journals

1. *Nesbitt, S. W., R. Zhang, and R. E. Orville, 2000: Seasonal and global NO(x) production by lightning estimated from the optical transient detector (OTD). *Tellus*, **52**, 1206–1215, <https://doi.org/10.3402/tellusb.v52i5.17098>.
2. *#Nesbitt, S. W., and E. J. Zipser, 2000: A census of precipitation features in the tropics using TRMM: Radar, ice scattering, and lightning observations. *J. Clim.*, **13**, 4087–4106, [https://doi.org/10.1175/1520-0442\(2000\)013<4087:ACOPFI>2.0.CO;2](https://doi.org/10.1175/1520-0442(2000)013<4087:ACOPFI>2.0.CO;2).
3. *Petersen, W. A., S. W. Nesbitt, R. J. Blakeslee, R. Cifelli, P. Hein, and S. A. Rutledge, 2002: TRMM observations of intraseasonal variability in convective regimes over the Amazon. *J. 74. Garg, P., S. W. Nesbitt, T. J. Lang, T. Chronis, G. Priftus, J. D. Thayer, and D. A. Hence, 2019: Identification and characterization of tropical atmospheric mesoscale near-surface cold pools using spaceborne scatterometer, precipitation, reanalysis, and high-resolution modeling. 18th AMS Conference on Mesoscale Processes, Savannah, GA.
75. Singh, I. T. and S. W. Nesbitt, 2019: High-resolution idealized simulations of orographic convection initiation over the Sierras de Córdoba Mountains. 18th AMS Conference on Mesoscale Processes, Savannah, GA.
76. Nesbitt, S.W., R. C. Chase, and G. M. McFarquhar, 2019: Using GPM-GV data for improved ice and mixed phase precipitation retrievals from GPM-DPR. NASA Precipitation Measurement Missions Science Team Meeting, Indianapolis, Indiana.
77. Chase, R. C., S. W. Nesbitt, and G. M. McFarquhar, 2019: Does an R-Dm relationship apply in snow? NASA Precipitation Measurement Missions Science Team Meeting, Indianapolis, Indiana.
78. Singh, I., S. W. Nesbitt, and C. A. Davis, 2019: Initiation of deep moist convection over the Sierras de Córdoba mountains in Argentina. AGU Fall Meeting, San Francisco, CA.
79. Rivelli Zea, L. E., S. W. Nesbitt, A. Tokay, and W. Petersen, 2019: RELAMPAGO-CACTI drop size distribution observations and the implications for hydrologic studies. AGU Fall Meeting, San Francisco, CA.
80. McFarquhar, G. M., J. Finlon, H. Morrison, M. Stanford, A. Varble, R. Rauber, S. W. Nesbitt, S. Ding, and W. Wu, 2019: A stochastic approach for representing uncertainty and variability in cloud microphysical parameters for use in process-oriented studies. AGU Fall Meeting, San Francisco, CA.
81. Pal, S., F. Dominguez, J. Alvarez, C. M. Garcia, S. W. Nesbitt, and D. Gochis, 2019: Hydrometeorological modeling of extreme rainfall events using WRF and WRF-Hydro during the RELAMPAGO campaign in Argentina. AGU Fall Meeting, San Francisco, CA.
82. Salio, P. V., M. Cancelada, S. W. Nesbitt, L. Vidal, and D. Vila, 2019: Environmental conditions associated to convective initiation of extreme convective systems over Southeastern South America. AGU Fall Meeting, San Francisco, CA.
83. Mulholland, J. S. W. Nesbitt, R. J. Trapp, and J. M. Peters, 2019: Terrain Influences on Upscale Convective Growth of Orographic Supercells into Mesoscale Convective Systems. AGU Fall Meeting, San Francisco, CA.
84. M. Cancelada, P. V. Salio, and S. W. Nesbitt, 2019: CCN Source Regions During RELAMPAGO-CACTI Field Campaign. AGU Fall Meeting, San Francisco, CA.
85. Chase, R. J., S. W. Nesbitt, G. McFarquhar, F. Tridon, and J. Leinonen, 2019: Improving Active Remote Sensing of Snow Through the Use of Multiple Frequencies, In-Situ Data and Neural Networks. AGU Fall Meeting, San Francisco, CA.
86. Casanovas, C., P. V. Salio, V. S. Galligani, S. W. Nesbitt, and B. Dolan, 2019: Drop-Size Distribution Variability over Central Argentina during RELAMPAGO-CACTI. AGU Fall Meeting, San Francisco, CA.
87. Trapp, R. J., G. R. Marion, and S. W. Nesbitt, 2019: Satellite-based anticipation of extreme convective weather through quantification of convective updraft characteristics: Application to potential tornado intensity

- estimation. AGU Fall Meeting, San Francisco, CA.
88. Marion, G., R. J. Trapp, and S. W. Nesbitt, 2020: Using Overshooting Top Area to Discriminate the Potential for Large, Intense Tornadoes. AMS Annual Meeting, Boston, MA.
 89. Schumacher, R. S., D. A. Hence, N. R. Kelly, K. A. Kosiba, S. W. Nesbitt, R. J. Trapp, and J. Wurman, 2020: High-Frequency Mobile Soundings in Convective Environments during RELAMPAGO: Overview and Preliminary Findings. AMS Annual Meeting, Boston, MA.
 90. Chase, R. J., S. W. Nesbitt, G. McFarquhar, F. Tridon, and J. Leinonen, 2020: Improving Active Remote Sensing of Snow Through the Use of Multiple Frequencies, In-Situ Data and Neural Networks. AMS Annual Meeting, Boston, MA.
 91. Trapp, R. J., G. Marion, M. F. Sessa, D. Chehak, and S. W. Nesbitt, 2020: Robust Observational Support of the Hypothesized Connection between Rotating Updraft Width and Tornado Intensity. AMS Annual Meeting, Boston, MA.
 92. Kosiba, K. A., J. Wurman, S. W. Nesbitt, R. J. Trapp, M. R. Kumjian, R. S. Schumacher, and D. A. Hence, 2020: Overview of CSWR RELAMPAGO Radar and Surface Observations. AMS Annual Meeting, Boston, MA.
 93. Nesbitt, S. W., I. Singh, J. Mulholland, R. J. Trapp, A. C. Varble, and V. Chandrasekar, 2020: Convective Mode Transitions in the Lee of Mesoscale Terrain as Observed during RELAMPAGO-CACTI. 19th Conference on Mountain Meteorology, virtual (invited).
 94. Singh, I., S. W. Nesbitt, and C. A. Davis, 2020: Processes Controlling the Location of Convection Initiation over Complex Terrain in a Sheared, Conditionally Unstable Environment, 19th Conference on Mountain Meteorology, virtual.
 95. Maring, H. B., and coauthors, 2020: The Rock Matrix Around CAMP2Ex's Gemstones: The Value of the Apparently Mundane in Shaping Earth System Observation. AGU Fall Meeting, virtual.
 96. Grover, M., R. J. Trapp, S. W. Nesbitt, L. Di Girolamo, and K. Kosiba, 2020: The Observed Relationship Between GOES-16 Derived Overshooting Top Area and Midlevel Updraft Area. AGU Fall Meeting, virtual.
 96. van den Heever, S. C., S. W. Nesbitt, and coauthors, 2020: The Cold Pools of CAMP2EX. AGU Fall Meeting, virtual.
 97. Schumacher, R. S., S. Hitchcock, K. Kosiba, S. W. Nesbitt, P. V. Salio, R. J. Trapp, 2020: A View into Mesoscale Convective Systems from High-Frequency Soundings in the PECAN and RELAMPAGO Field Campaigns. AGU Fall Meeting, virtual.
 97. Chase, R. J., S. W. Nesbitt, and G. M. McFarquhar, 2020: Global retrieved snowfall properties using a neural network and GPM-DPR. AGU Fall Meeting, virtual.
 98. Nesbitt, S. W., L. E. Rivelli-Zea, M. Grover, R. J. Trapp, A. Varble, V. Chandrasekar, I. H. Arias, T. J. Lang, and K. M. Bedka, 2020: Perspectives on deep convective updraft modes using multi-sensor remote sensing data from RELAMPAGO-CACTI. AGU Fall Meeting, virtual (invited).
 99. Fisher, E. V., B. Bloodhart, K. Rasmussen, I. B. Pollack, M. G. Hastings, E. Marin-Spiotta, A. R. Desai, J. P. Schwarz, S. W. Nesbitt, and D. Hence, 2021: Leveraging Field-Campaign Networks to Effect Collaborative Change on Sexual Harassment. AGU Fall Meeting, virtual.
 100. Nesbitt, S. W., L. E. Rivelli-Zea, M. Grover, R. J. Trapp, A. Varble, V. Chandrasekar, I. H. Arias, T. J. Lang, and K. M. Bedka, 2021: Perspectives on deep convective updraft modes using multi-sensor remote sensing data from RELAMPAGO-CACTI. AMS Annual Meeting, virtual.

3. RESIDENT INSTRUCTION

A. Summary of Instruction

1. Courses Taught

ATMS 207 Introduction to Weather and Climate Data Science
 ATMS 305 Geophysical Data Analysis
 ATMS 315 Meteorological Instrumentation
 ATMS 406 Tropical Meteorology
 ATMS 410 Radar Remote Sensing
 ATMS 411 Satellite Remote Sensing
 ATMS 505 Weather Systems
 ATMS 571 Graduate Professional Development

ATMS 591 Graduate Seminar
 ATMS 597 Mesoscale Modeling with the Weather Research and Forecasting Model
 ATMS 597 Weather and Climate Data Science

2. Supervision of graduate students

M.S. Students Supervised

Kaufeld/Flynn, Wendilyn	M.S., 2010, continued to PhD in our department
Schiffer, Nicole	M.S., 2010, continued to PhD in our department
Harnos, Daniel	M.S., 2010, continued to PhD in our department
Brown, Patrick	M.S., 2010, currently employed at Energy Resources Center
Reed, Kimberly	M.S., 2011, continued to PhD in our department
Duffy, George	M.S. 2016, now a PhD student at Vanderbilt University
Choi, Lina	M.S. 2016 (received NSF Graduate Fellowship Fall 2015), now a PhD student at Aalborg University, Denmark
Chase, Randy	M.S., 2018, continued to PhD in our department
Zea, Lina Rivelli	M.S. student, 2017 – 2020
Williams, Kaela	M.S. student, 2021 – present
Blind, Leanne	M.S. student, 2021 – present
Wolff, Edward	M.S. student, 2021 – present
Berman, Melinda	M.S. student, 2021 – present

Ph.D. Students Supervised

Kaufeld/Flynn, Wendilyn	2012: “Land surface and orographic controls on precipitation patterns in the Sierra Madre Occidental and Western Ghats”, Currently employed as an associate professor of earth sciences at the University of Northern Colorado.
Schiffer, Nicole	2013: “Intraseasonal precipitation processes in complex terrain: The effects of model and terrain resolution on WRF simulations of the North American Monsoon.” Currently employed a science writer at the National Center for Supercomputing Applications.
Harnos, Daniel	2014, “Characterization of the role of precipitation in tropical cyclone intensification”, Currently employed at NOAA Climate Prediction Center.
Gleicher/Harnos, Kirstin	2014, “Parametrizing PSD assumptions for GPM algorithms”, Currently employed at NOAA Climate Prediction Center.
Reed, Kimberly	2009 – 2017, Passed Qualification Exam May 2013 (received NASA Earth System Science Graduate Fellowship Fall 2011), now a researcher at Radiometrics, Inc.
Mulholland, Jake	2019, “How does terrain impact the upscale growth of deep moist convection”, Currently a National Research Council postdoctoral fellow, Naval Research Laboratory.
Chase, Randy	2021, “Improving active remote sensing retrievals of snowfall at microwave wavelengths: an emphasis on the Global Precipitation Measurement mission’s dual-frequency precipitation radar”, currently a postdoctoral fellow at the University of Oklahoma.
Garg, Piyush	2021, “Tropical Oceanic Mesoscale Cold Pools in Observations and Models”, currently a scientist at Argonne National Laboratory.
Singh, Itinderjot	2021, “Numerical simulations of initiation and evolution of convection over the Sierras de Córdoba mountains, Argentina”, currently a postdoctoral scientist at Colorado State University
Cancelada, Maite	2016 – present, Universidad de Buenos Aires, Argentina
Rivelli-Zea, Lina	2020 – present
Ladino Rincon, Alfonso	2020 – present
Suarez, Matias	2021 – present, Universidad Nacional de Córdoba, Argentina

Graduate Examination Committees

2007: Grim, Joseph (Ph.D.)
 2008: Zhang, Henian (Ph.D.), Romine, Glen (Ph.D.)
 2009: Um, Junshik (Ph.D.)
 2012: Van Looche, Andrew (Ph.D.)
 2013: Barman, Rahul (Ph.D.), Ching, Joseph (Ph.D.)

2014: Mills, Catrin (Ph.D.), Hanks, Isaac (Ph.D.)
 2015: Alvarez Imaz, Milagros (Licenciatura, Universidad de Buenos Aires, Argentina), Keeler, Jason (Ph.D.), Anselmo, Evandro (Ph.D., Universidade de São Paulo, Brazil), Grazioli, Jacopo (Ph.D., École Polytechnique Fédérale de Lausanne, Switzerland)
 2016: Tian, Jian (Ph.D.), Rosenow, Andrew (Ph.D.)
 2017: Fritz, Cody (Ph.D.), Wu, Wei (Ph.D., 2017)
 2018: Hu, Huancui (Ph.D.)
 2019: Curtis, Jeffrey (Ph.D.)
 2019: Finlon, Joseph (Ph.D.), Elkins, Calvin (ABD)
 2020: Gray, Kevin (ABD), Pal, Sujun (Ph.D.), Fu, Dongwei (ABD), Janiszski, Andrew (ABD)
 2021: Mitra, Arka (ABD), Geoff Marion (Ph.D.), Sujun Pal (Ph.D.), Maxwell Grover (M.S.), Candela Casanovas (Licenciatura, Universidad de Buenos Aires, Argentina), Julián Berrio (U. Nacional Colombia, ABD), Divyansh Chug (ABD)
 2022: Elkins, Calvin (Ph.D.)

3. Supervision of Undergraduate Students (*capstone, +undergraduate researcher)

2009: Akers, Roger+
 2011: Sulski, Katie*, Mycyk, Nicolas *
 2012: Ventimiglia, Thomas*, Gacek, Zaneta+
 2013: Ortiz, Ana*, Ewing, Gabriel+
 2015: Carter, Lauren*, Gaggiano, Stephen*
 2017: Soch, Carson*, Shackelton, James*, O'Shea, Brian*, Mandruccolo, Justin*, Grande, Anthony*
 2018: Ross, Tobias*, Chung, Brian+
 2019: James, Scott*
 2020: James, Scott*, Daniel Lopez+, Xiqui Luo*
 2021: Daniel Lopez+, *, Brianna Bragg (SOARS)+

4. SERVICE

A. Summary of Service

1. Public Engagement

Speaker at the Central Illinois Chapter of the AMS, Lincoln, IL, Sep 2006
 Speaker at the Illinois State Water Survey, Champaign, IL, Oct 2006
 Interviewed by *Daily Illini* on the hurricane season, Sep 2007
 Represented Atmospheric Sciences at the National Weather Service Open House, Lincoln, IL, Oct 2007
 Speaker at earth science classes, Lancaster High School, Lancaster, NY, Oct 2007
 Speaker in campus-wide lecture series on the North American Monsoon, State University of New York at Oswego, Oswego, NY, Oct 2007
 Interviewed by *Daily Illini* on snowy weather, Feb 2008
 Speaker at Early Learning preschool on hurricanes, Champaign, IL, Dec 2008
 Speaker at Early Learning preschool on tornadoes, Champaign, IL, May 2009
 Interviewed by *Daily Illini* on climate change impacts, Oct 2009
 Interviewed by Medill News Service on weather exhibit at Chicago Museum of Sci. and Technology, May 2010
 Speaker at Bottenfield Elementary School on tornadoes, Champaign, IL, May 2010
 Interviewed by *Christian Science Monitor* on research on rapidly intensifying hurricanes, Aug 2011
 Interviewed by American Institute of Physics *Discoveries and Breakthroughs Inside Science* on rapidly intensifying hurricanes, Aug 2011
 Speaker at Booker T. Washington Elementary School on tornadoes, Champaign, IL, Mar 2012
 Interviewed on rapidly intensifying hurricanes, *ORF Austria Radio/Television*, May 2012
 Speaker at Leal Elementary School on weather and tornadoes, Urbana, IL, May 2012
 Led short course on Spaceborne Radar at the European Radar and Hydrology conference, Toulouse, France, Jun 2012.
 Speaker at Polaris Charter Academy on Hurricanes, Chicago, IL, Sep 2012

Hosted the 7th grade class (~80 students) from Polaris Charter Academy in the Department of Atmospheric Sciences, Urbana, IL, Nov 2012
 Invited webinar speaker on the Global Precipitation Mission, CoCoRAHS Webinar Series, Jun 2013
 Invited webinar speaker on the Remote Sensing of Clouds and Precipitation, National Earth Science Teachers Association, Aug 2013
 Invited webinar speaker on the Remote Sensing of Clouds and Precipitation, National Earth Science Teachers Association, Feb 2015
 Led 8-day workshop on “Applications of dual polarization radar data” at Universidad de Buenos Aires, Mar-Apr 2015
 Interviewed by the CANAL 10 television station (in Spanish) in Córdoba, Argentina, Apr 2015
 Interviewed by the University of Buenos Aires Public Affairs Bureau on RELAMPAGO field campaign, May 2015
 Speaker on Clouds and Precipitation at Bottenfield Elementary School, Champaign, IL, May 2016.
 Speaker on Clouds and Precipitation at University Primary School, Champaign, IL, Oct 2016
 Interviewed by Business Insider on “Scientists around the world are worried about a Trump team proposal to ax NASA’s 58-year mission to study the Earth”, Dec 2016
 Interviewed by University of Illinois College of LAS news article on RELAMPAGO, Jun 2017
 Interviewed for Champaign-Urbana News-Gazette The Big 10 with Jeff D'Alessio: “What game-changing innovations could be on the horizon in the next 20 years”, Oct 2017
 Interviewed by Perfil Newspaper, Buenos Aires, Argentina about RELAMPAGO, Apr 2018
 Speaker on Tornado Safety, Campus Middle School for Girls, Urbana, IL, Jun 2018
 Interviewed by *Science Magazine* about RELAMPAGO-CACTI, Oct 2018
 Interviewed by *New York Times Magazine* about RELAMPAGO-CACTI, Oct 2018
 Interviewed by *BBC* about RELAMPAGO-CACTI, Oct 2018
 Interviewed by *La Voz* (Córdoba, Argentina Newspaper) about RELAMPAGO-CACTI, Oct 2018
 Interviewed by *C5N* (Argentina National TV Network) about RELAMPAGO-CACTI, Oct 2018
 Speaker on Precipitation and Clouds, Montessori School of Champaign-Urbana, Oct 2019
 Interviewed by *Weather Geeks* podcast, March 2020
 Interviewed by *Forbes Magazine* on Faculty Workloads, Mar 2020
 Interviewed by *Washington Post* on Kansas Storms, Jun 2020

2. Service to Disciplinary and Professional Societies or Associations

Member, AMS Science and Technology Advisory Committee on Radar Meteorology, 2007 – 2012
 President-elect, Central Illinois Chapter of the AMS, 2007
 President, Central Illinois Chapter of the AMS, 2007 – 2009
 Faculty advisor, University of Illinois Chapter of the AMS, 2007 – 2013
 Chaired session on “Error Metrics” at the World Meteorological Organization Workshop on High Resolution Precipitation Products, Geneva, Switzerland, Dec 2007
 Chaired session on “Use of Lightning Data in the Operational Warning and Decision Making Process” at the 3rd Conference on the Meteorological Application of Lightning Data, AMS Annual Meeting, New Orleans, LA, Jan 2008
 Member of Validation Working Group, International Precipitation Working Group, Coordination Group for Meteorological Satellites, World Meteorological Organization, Oct 2008 – present
 Served on National Academy of Sciences Committee on Progress and Priorities of US Weather Research and Research-to-Operations Activities”, Woods Hole, MA, Jul 2009
 Chaired session on “Quantitative Precipitation Estimation” at the 34th AMS Conference on Radar Meteorology, Williamsburg, VA, Oct 2009
 Chaired session on “Convection” at the 29th AMS Conference on Hurricanes and Tropical Meteorology, Tucson, AZ, May 2010
 Selection committee, Max Eaton Prize at the 29th AMS Conference on Hurricanes and Tropical Meteorology, Tucson, AZ, May 2010
 Co-Chair, AMS 35th Conference on Radar Meteorology, Sep 2011
 Selection committee, Spiros Geotis Prize at 35th AMS Conference on Radar Meteorology, Pittsburgh, PA, Sep 2011
 Session co-convenor, “Orographic precipitation: Measurement, Mechanisms, and Impact on Landforms”, AGU Fall Meeting, Dec 2011.

Session co-convenor, “Remote Sensing of Tropical Cyclones and Tropical Convective Systems: Observation and Data Assimilation”, AGU Fall Meeting, Dec 2012.

Chair, AMS Science and Technical Advisory Committee on Radar Meteorology, 2013 – 2016.

Chaired session on “Applications” at the 4th International Workshop on Space-based Snowfall Measurement (IWSSM), Mammoth Lakes, CA, May 2013

Chaired session on “Precipitation and Microphysics Estimation – Research” at the 36th AMS Conference on Radar Meteorology, Breckenridge, CO, Sep 2013

Chaired session on “Invited keynote speaker: Precipitation and Microphysics Estimation – research” at the 36th AMS Conference on Radar Meteorology, Breckenridge, CO, Sep 2013

Chaired session on “Nowcasting techniques”, 8th European Conference on Radar in Meteorology and Hydrology, Garmisch-Partenkirchen, Germany, Sep 2014.

Session rapporteur, “Ground Validation Science”, at 7th NASA Global Precipitation Measurement Ground Validation Workshop, Seoul, Korea, May 2015.

Chaired session on “Microphysical Studies, General Topics in Radar Meteorology, and New and Emerging Radar Technology” at 37th Conference on Radar Meteorology, AMS, Norman, OK, Sep 2015.

Chaired session on “Microphysical Studies” at 37th Conference on Radar Meteorology, AMS, Norman, OK, Sep 2015.

Chaired session on “Intense Continental Convection” at 2015 Fall Meeting, AGU, San Francisco, CA, Dec 2015.

Chaired session on “Polarimetric Radar Applications” at 2016 Fall Meeting, AGU, San Francisco, CA, Dec 2016.

Chaired session on “Intense Continental Convection” at 2016 Fall Meeting, AGU, San Francisco, CA, Dec 2016.

Member, Earth Sciences Council, United Space Research Association, 2016 – present

Chaired session at Midwest Student Conference on Atmospheric Research, University of Illinois, Sep 2017.

Chaired session on “Mesoscale Convective Systems and PECAN Results” at 18th Conference on Mesoscale Meteorology, AMS, Savannah, GA, Jul 2019

Chaired symposium and session on “Mesoscale Processes Across Scales” at 101st Annual Meeting, AMS, New Orleans, LA, Jan 2021

Chaired symposium and session at 102nd Annual Meeting, AMS, Houston, TX, Jan 2022 (planned)

3. Editorship of Journals

Editor, Journal of Applied Meteorology and Climatology, AMS, 2010 – 2014

Chief Editor, Atmosphere section, Journal of Atmospheric and Oceanic Technology, AMS, 2022 –

4. Journals, publishers, or federal agencies serving as a reviewer for submitted papers, books, or proposals

Atmosfera

Atmosphere

Atmospheric Chemistry and Physics

Atmospheric Research

Bulletin of the American Meteorological Society

Cambridge Press

Geography Compass

Geophysical Research Letters

Department of Defense

Department of Energy

Deutsche Forschungsgemeinschaft (German National Science Foundation)

International Journal of Climatology

IEEE Transactions on Remote Sensing

Journal of Applied Meteorology and Climatology

Journal of Atmospheric Sciences

Journal of Climate

Journal of Geophysical Research – Atmospheres

Journal of Hydrometeorology

Journal of Atmospheric and Oceanic Technology

Journal of the Meteorological Society of Japan

Monthly Weather Review

Natural Environment Research Council (United Kingdom)
National Science Foundation
National Oceanic and Atmospheric Administration
National Aeronautics and Space Administration
Quarterly Journal of the Royal Meteorological Society
University of Illinois Research Foundation
University of California
Weather and Forecasting

5. Service to the University

College and Campus:

Member of College of Liberal Arts and Sciences Policy and Development Committee, 2007–2009
Member of College of Liberal Arts and Sciences Honors Council, 2012 – 2015
Member of College of Liberal Arts and Sciences Dean’s Faculty Information Team, 2012 – 2013
Member of Water Council, Illinois Institute for Sustainability, Energy, and Environment (iSEE), 2014 – present
Member of College of Liberal Arts and Sciences General Education Council, 2015 – 2016, 2016 – 2018
Faculty Senate departmental representative, 2019 – 2021
Member of College of Liberal Arts and Sciences Diversity and Inclusion Working Group, 2020 – Present

Department:

Organized Department Seminars, 2008 – 2009
Member of Department Graduate Affairs Committee, 2007 – 2009, 2013 – 2014
Chair, Department Web Committee, 2007 – present
Member of Department Curriculum Committee, 2007 – 2009, 2015 – 18, 2019 – present
Chair, Department Curriculum Committee, 2012 – 2015
Research Poster Judge, School of Earth, Society, and Environment Research Review, 2009, 2010, 2013, 2015, 2016, 2017, 2018, 2019, 2020
Ogura Research Award departmental review committee, 2010, 2011, 2014, 2016, 2018
Prepared questions for and graded questions from Ph.D. graduate qualification exam, 2007 – 2014
Served on department head review committee, Spring 2013 semester
Chaired search committee for Junior Faculty Search, 2013 – 2014 academic year
Chaired discussion on department undergraduate and graduate Curriculum, 2014 department faculty retreat
Member of Department of Atmospheric Sciences Executive committee, 2015 – 2016, 2017 – 2018, 2019 – 2020, 2021 – 2022
Committee to form a new online graduate program in Atmospheric Sciences, 2017 – present
Hiring committee for Teaching Assistant Professor, 2019 – 2020
Effort to develop an undergraduate atmospheric science + data science major, 2019 – present
Faculty mentorship committee for an assistant professor, 2019 – present
Chair, Admissions Committee, 2019 – 2020
Department Diversity Advocate, 2019 – present
Chair, Diversity, Equity, and Inclusion committee, 2020 – 2021
Chair, Radar Technician search committee, 2021
Chair, Radar Engineer search committee, 2021
Chair, Radar Scientist search committee, 2021
Chair, Graduate Affairs Committee, 2021 – present
Organized Department Seminars, Fall 2021
